5x7 flat cards  
40

5x7 folded cards  
60

### Digital Files

A free small digital file comes with every image you order a print from.

I do not sell digital files on their own, because I think it is very important to print high-quality photos to keep your images safe. A print can always be rescanned to create a new digital file, but a corrupted digital file can not be printed or even viewed, resulting in complete loss of the image. I value your memories, so all my products are printed with museum-quality archival inks and papers.
